# Sabuhi Gasimov

## Frontend Developer

I am a dedicated professional specializing in frontend development. I have been working at an LLC company for over a year and a half, gaining work experience. While my current position is temporary to meet financial needs, my primary objective is to advance my skills and career in frontend development. I am eager to find a new position as an intern where I can continue to learn and improve my skills.

## Experience

### Payroll and Accounting Specialist

Since January 2024 **Baku Maintenance Service LLC** Baku

- **Payroll and reporting specialist:** Responsible for calculating, preparing, and verifying employee salaries, including applying deductions. Ensures timely and accurate payment of salaries by sending the finalized payroll to the respective employees. Additionally, prepares and submits 5 different supplementary reports for the company.

### Inventory Manager

From January 2023 to December 2024 **Baku Maintenance Service LLC** Baku

- **Assessment of Incoming Goods:** I managed the process of accurately recording, categorizing, and evaluating incoming goods.
- **Assessment of Outgoing Goods:** I contributed to profitability analysis by calculating the cost of sold goods. I effectively tracked and reported inventory costs to evaluate business performance.
- **Assistance with Payroll Processes (April 2023 - January 2024):** Assisted the payroll specialist with calculating employee salaries, applying deductions, and preparing payroll reports. Ensured accuracy in payroll data and supported timely and accurate salary disbursements.

### Frontend

Since December 2023 **Freelance** Baku

### Frontend

From May 2022 to July 2022 **Freelancer** Baku

- **HTML, CSS, and Bootstrap:** I developed customized websites using HTML, CSS, and Bootstrap to create responsive and user-friendly designs tailored to client needs.
- **JavaScript and jQuery:** I successfully integrated technologies like JavaScript and jQuery to add interactive features and enhance user experiences in web projects.

### Frontend Mentor

From October 2021 to April 2022 **Pragmatech Education & Development Center** Baku

## Education

### Mini Full Stack

From September 2021 to May 2022 **Pragmatech Education** Baku
